<b>Institutional Dwelling</b>							
Number of Long Term Care (LTC) Homes (formerly called Facilities)	94				0		
Number of beds	16,429				0		

Dash ( - ) number and rate are suppressed since either numerator is less than 5 or denominator less than 30.

\* Data not available for 1996

\*\* Interpret with caution

Notes:

- Total for both sexes is slightly different from the sum for males and females & total for all the areas is also slightly different from the sum of all individual areas due to random rounding by Statistics Canada.
- LTC data is as of March 2004 and includes planned for 2005 and projected for 2006.

% With Activity difficulties/reductions	62.4	67.3	65.3	78.2	72.9	74.3
95% CI				(73.3, 83.1)	(68.9, 76.9)	(71.6, 77.1)
Rate ratio				1.25 H	1.08 H	1.14 H

C I - Confidence Interval

H/L/NS - chances are 19 in 20 that the rate is higher (H) or lower(L) or not significantly (NS) different than the aggregate (city) rate.

<sup>1</sup> The census includes questions to identify persons with limitations in the amount and kind of activities at home, at work, at school or in other activities due to a physical or mental condition or health problem lasting six months or more. The responses are used to identify persons for a post census survey on disability. The wording of the census screening questions differed between 1996 and 2001 with the 2001 census capturing a larger sample.

The rates for the two time periods are not comparable with each other. The 2001 census questions is similar to the CCHS question on activity limitation.
