

Toronto Central LHIN Updates

May 1, 2017

T_OCHPP Partner's Meeting

Toronto Central Toronto Cental LHIN Updates

1. Transition to merged LHIN/CCAC organization – June 7, 2017
 - New organization structure
2. Primary and Community Care Committee
 - Health Links merged with primary care
 - Formed Sub-region Collaboratives for each of the 5 sub-regions
3. Each Sub-region collaborative has selected a priority area to focus on in the coming year
 - West Toronto: Rockcliffe-Smythe – focus on chronic diseases
 - Mid West Toronto: Kensington Chinatown – focus on low urgency ED visits
 - North Toronto: Mount Pleasant West – focus on aloneness for a) Lone parent families and b) Seniors living alone
 - Mid-East Toronto: Moss Park – focus on homelessness and mental health and addictions
 - East Toronto: Oakridge– focus on Toronto Community Housing high needs buildings and MHA
4. Analysis of Toronto Community Housing high needs buidlings

Toronto Central LHIN Updates

5. Population Health and Equity Table, one of the subgroups is Needs Based health Assessment Work group (collaboration with Toronto Public Health)
6. Continued standardized equity data collection by hospitals and CHCs
 - Applied Health Research Questions (AHRQ) to ICES for hospitals to submit data to ICES
 - Hospitals and CHCs encouraged to use the equity data they have collected to stratify variables
7. Health Service Provider (HSP) Supplemental Survey for 143 community providers: includes information on: HSP site locations, opening hours, priority populations and conditions, geographic catchment areas, funders, CBI, quality improvement
 - Sending data to T/OCHPP and Wellbeing Toronto
