

## N91 – Weston-Pellam Park Profile: Hospital Admissions

| Indicators  | City of Toronto |           |            | Toronto Central LHIN |         |            | Weston-Pellam Park |                  |                     |              |
|---|-----------------|-----------|------------|----------------------|---------|------------|--------------------|------------------|---------------------|--------------|
|   | Males           | Females   | Both sexes | Males                | Females | Both sexes | Males (95% CI)     | Females (95% CI) | Both sexes (95% CI) | Rate Ratio** |
| <b>Medical Hospital Admissions (2011-2012) ±</b>          |                 |           |            |                      |         |            |                    |                  |                     |              |
| Total Population Ages 0-64 <sup>a</sup>                   | 1,091,600       | 1,141,255 | 2,232,855  | 489,685              | 503,855 | 993,540    | 5,420              | 5,275            | 10,695              |              |
| # of Hospitalizations (2 yrs) ±                           | 20,705          | 18,043    | 38,748     | 9,079                | 7,552   | 16,631     | 126                | 112              | 238                 |              |
| Average annual rate of hospitalizations per 1,000 pop     | 9.0             | 7.3       | 8.1        | 9.3                  | 7.5     | 8.4        | 11.6 (9.7-13.8)    | 10.6 (8.7-12.8)  | 11.1 (9.8-12.6)     | 1.37 H       |
| Total Population Ages 65+ <sup>a</sup>                    | 160,185         | 215,165   | 375,350    | 63,770               | 86,195  | 149,965    | 560                | 680              | 1,240               |              |
| # of Hospitalizations (2 yrs) ±                           | 23,032          | 26,313    | 49,345     | 9,632                | 11,065  | 20,697     | 107                | 103              | 210                 |              |
| Average annual rate of hospitalizations per 1,000 pop     | 69.6            | 59.0      | 63.5       | 75.5                 | 64.2    | 69.0       | 95.5 (78.3-115.4)  | 75.7 (61.8-91.9) | 84.7 (73.6-96.9)    | 1.33 H       |
| Total Population All Ages 0+ <sup>a</sup>                 | 1,251,785       | 1,356,420 | 2,608,205  | 553,455              | 590,050 | 1,143,505  | 5,980              | 5,955            | 11,935              |              |
| # of Hospitalizations (2 yrs) ±                           | 43,737          | 44,356    | 88,093     | 18,711               | 18,617  | 37,328     | 233                | 215              | 448                 |              |
| Age-Adjusted average rate of hospitalizations per 1,000 † | 13.6            | 13.0      | 13.3       | 14.3                 | 13.7    | 14.0       | 18.2 (16.4-21.1)   | 18.7 (15.8-20.6) | 18.5 (16.8-20.2)    | 1.39 H       |

**CI** Confidence Interval; LL = Lower Limit; UL = Upper Limit

**H / L / NS** Chances are at least 19 in 20 that the rate is higher (H) or lower (L) than the City of Toronto rate ( $p < 0.05$ ). Rates marked not significantly (NS) different do not reach this level of significance.

<sup>a</sup> Denominator: Total Population - Based on 2011 Census population estimates, Statistics Canada.

± Numerator: All unscheduled Hospital admissions for Medical conditions for 2 year (2011-2012) observation period.  
Data source: Canadian Institute for Health Information (CIHI)

**Rate** Represents the average annual rate of hospitalizations for 2 year (2011-2012) observation period

\* Rates based on fewer than 20 events are likely to be unstable and imprecise.

**Dash ( - )** Number and rate are suppressed since numerator is less or equal to 5 or due to missing/incomplete data.

For any cell (numerator OR denominator) less than 6, additional cells will be suppressed to disallow the calculation of the missing (suppressed) cell. Reported totals include suppressed cells.

\*\* Rate ratios for both sexes were created by dividing the local area rate by the City of Toronto aggregate rate.

† Rates are age-adjusted using the direct method and the 1991 Canada population as the standard population.
